WORK HISTORY

Full Stack Developer, Cleverttech

05/2022 - Present

- Developed solutions using **React**, **Node.js**, and **MongoDB**.
- Created new features for the application on the front end and back end.
- Developed unit tests in **Jest** and **React Testing Library**.
- Provided solutions to client requirements.
- Debugged and resolved front-end issues.

React Developer, WIP-IT

10/2021 - 05/2022

- Provided front-end website development working with **React**, **Next.js**, and **styled-components**.
- Developed visual elements from UI/UX design wireframes like **Figma**.
- Developed and designed responsive user interfaces using **HTML**, **CSS**, and **JavaScript**.
- Performed **Unit Tests** on web applications and troubleshooting issues.
- Collaborated with UX designers to determine the layout of websites.
