About me

I'm a self-taught web developer and Spanish translator. I enjoy helping new developers reach their goals, I also contribute to online open-source communities with translations, correction and proofreading of technical articles.

Work Experience

Full Stack Developer
Clevertech | 05/2022 - 12/2022

I was part of the Internal Team that helped maintain an application based on React and Node.js that manages almost all of the company's operations, including the HR hiring process, projects, payments, developers, and leads. My role was to create new features for the app on the front-end and back-end in addition to bug fixes.
Technologies used: React, Redux Saga, Mongoose, MongoDB, ExpressJS, testing with Jest and React Testing Library.

React Developer
WIP-IT & Selection IT | 10/2021 - 03/2022

My main responsibility was to develop visual elements of web applications by translating UI/UX design wireframes from Figma, into code while producing high-quality, reusable markup using HTML5, CSS, and JavaScript.
Technologies used: HTML5, CSS3, Storybook, Styled Components
